

**Current Sites**

**Non-Responsive as Agreed by Requestor**

**New sites/work**

- Exide – Leslie
  - The State asked EPA to add Exide to the NPL list
  - Site will need a phased Scope of Work from EPA (Leslie)
  - Initial phase will likely be a PA-level data review
  - Need to determine the extent of the study area (DTSC has separating site into onsite industrial facility, residential cleanups, offsite industrial areas, parkways (road verges)
  - DTSC can provide EPA/Weston with sample collection data
  - DTSC data is currently managed in Equis, Weston will discuss with data team what the best format is for the data transfer (i.e. mdb, xls etc)
